

## Contractors and Engineers Monthly Volume 1-2

By -

RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 254 pages. Dimensions: 9.7in. x 7.4in. x 0.5in. This historic book may have numerous typos and missing text. Purchasers can usually download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1920 edition. Excerpt: . . . pipes in which fires were kept burning. The top of the structure was kept covered with canvas, under which salamanders were placed until the concrete had set beyond all danger of damage by freezing. On account of the rather open character of the structure, the protection during the cold weather was rather difficult, but it has apparently been sufficient. The bridge was designed by Ross M. Riegel, Designing Engineer for the Conservancy District, and was built in the field under the direction of Leslie Wiley, Superintendent of Construction. The material for this article was secured from the Miami Conservancy Bulletin. Portable Steam Pump For Dewatering Excavations ANY contractors are already thoroughly conversant with the Pulsometer steam pump, which they are using in pumping operations and foundation and trench work successfully without the use of oil or any attention during the operation....

### Reviews

*It is easy in read through easier to fully grasp. it had been writtern very completely and useful. I am pleased to let you know that here is the greatest book we have read during my personal life and could be he very best book for possibly.*

-- Miss Marge Jerde

*It is really an remarkable publication i actually have possibly study. It usually is not going to cost excessive. Its been written in an exceedingly basic way and is particularly only right after i finished reading this publication through which basically transformed me, affect the way i think.*

-- Dr. Breana O'Kon
