Print on Demand *****.Zendor the Barbarian: An orphan s battle

with science and spirituality in the quest for identity. Maybe the

most authentic and honest book you will read on the subject of

extraterrestrial intelligence, investigating one s identity and

congruence with science and spirituality. An orphan s quest for

identity reveals a new millennial myth wrapped in a true story

about the discovery and potential of extraterrestrial origins. The

intense trials and tribulations of garnering wisdom in a world

that seems alien imbue the journey with humility. As incredulous

as it sounds, it is definitely worth the read. Serendipitously, the

young boy is startled by an unknown voice soon after he finds

out about his adoption. Two years later he finds himself

ascending into an orange cigar-shaped cloud on a regular basis,

but with no memory of what happens inside, only a sensation of

familiarity and desire to return. What would you do? Just after

his 18th birthday his cosmic mentor returns to ask the question,

Are you willing to die for what you believe in? His life changes

dramatically...
