Addison-Wesley, 2005. Softcover. Book Condition: Neu. Gebraucht - Sehr gut Unbenutzt. Schnelle Lieferung, Kartonverpackung. Abzugsfähige Rechnung. Bei Mehrfachbestellung werden die Versandkosten anteilig erstattet. - Access is one of the most widely used pieces of software. Perhaps more so than any other common program, such as Word or Excel, though, many of its users find it more vexing to really understand and use well. This is because you can't use Access successfully without a framework in your head of how a relational database management system works, and almost none of us have that training. While there are many books on Access, most of them are either introductory tutorials on how to use Access's features, or big comprehensive references. None of them give a good solid grounding in basic database design principles. This book fills that need; there really is no other book on Access like it on the market. The author has written for on Access for more than seven years, and knows how to present complicated principles clearly and in an easyto- understand way. 496 pp. Englisch.
