## NOTES ON THE CONSTRUCTION AND WORKING OF PUMPS (CLASSIC REPRINT) (PAPERBACK)

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from Notes on the Construction and Working of Pumps The Author has written the series of articles, now presented in book form, for users rather than for makers and students of pumping machinery. He has therefore considered the leading types of pumps and pumping engines as users receive them, or should receive them - i.e., in the finished state. But such particulars are given concerning construction and capabilities, and as far as possible of results actually obtained, as will, it is hoped, be of assistance to engineers, manufacturers and others, in the difficult task of making the best selection for their service from the many proposals they may have before them. The earlier chapters deal with matters common to all pumps, such as the conditions affecting the limit of suction lift, piston or plunger speeds, air vessels, pipes and other connections, and with types of valves, packings, and other details. The author desires to thank the various makers who have kindly supplied blocks, particulars as to tests, or other information concerning their machinery. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
