

Insects of the Texas Lost Pines (Paperback)

By Stephen Welton Taber, Scott B. Fleenor

Texas A M University Press, United States, 2003. Paperback. Book Condition: New. 232 x 156 mm. Language: English . Brand New Book. In an isolated pine forest on the eastern edge of Central Texas, there lies an island of abundant and diversified life known as the Lost Pines. Separated from the rest of the state s East Texas pine forests by more than one hundred miles, the Lost Pines marks the westernmost stand of the loblolly pine and is a refuge for plants and animals more typically associated with the southeastern United States where the tree originated. Surrounded now by pastures and scattered oak woodlands, the Lost Pines supports a remarkable ecosystem, a primeval sanctuary amidst the urban bustle of nearby Austin and of neighboring communities Bastrop, Elgin, and Smithville. This 100,000 acre island includes portions of Bastrop and Buescher State Parks, and it was here that Stephen W. Taber and Scott Fleenor encountered insect life of astonishing diversity. Setting out to identify and describe the insects and related animals most readily observed in the Lost Pines, they also discovered some hidden, rare, and never-before-described species. The result is this book, a bestiary of more than 280 species of invertebrates...
