CreateSpace Independent Publishing Platform. Paperback. Book Condition: New. This item is printed on demand. Paperback. 104 pages. Dimensions: 11.0in. x 8.5in. x 0.2in. The Defense Transportation System (DTS) is an integral part of the total global transportation system and involves procedures, resources, and interrelationships of several Department of Defense (DOD), federal, commercial, and non- US activities that support DOD transportation needs. Support of national strategy must include modern, flexible, responsive global transportation that is capable of integrating military, commercial, and host-nation resources. The transition period from peacetime to war may be extremely short; thus the concept of operations for the US Transportation Command (USTRANSCOM) provides for a process of global transportation management. This process establishes an integrated transportation system to be used across the range of military operations providing the most effective use of air mobility, sealift, rail, pipeline, and land transportation resources from origin to destination. The transportation database, prepared through the Joint Operation Planning and Execution System, provides commanders and planners with adequate force requirements, other deployment data, and sustainment information. The Secretary of Defense is responsible for overall transportation planning and operations within DOD. The Chairman of the Joint Chiefs of Staff reviews and evaluates movement requirements and resources, apportions capability, and allocates capability when required. The Commander, USTRANSCOM provides air, land, and sea transportation, common-user port management and terminal services per the Unified Command Plan for DOD across the range of military operations through the transportation component commands: Air Mobility Command, Military Sealift Command, and Military Traffic Management Command. This system includes the effective use of theater military and commercial transportation assets identified during and coordinated through the combatant commands joint movement center plan development. The Military Departments are responsible for organizing, training, equipping, and providing the logistic support of their respective forces as well as maintaining...
